

BEN NATHANSON

EMPLOYMENT

Stavvy **Software Engineer** **November 2020 – Present**

- Owned and delivered features end-to-end using FastAPI, Python, React, Typescript, and more.
- Refactored internal services into a Public API, opening the door to a new set of use cases and customers.
- Deployed lambdas, queues, tables, and other infrastructure using Terraform and Serverless.
- Thrived as we grew from 15 to 150+ people, raised a \$40 million series A, and built products from 0 to 1.
- Created pre-commit hooks and CI pipelines to promote quality through readability and test coverage.
- Shipped a complex feature integration with changing requirements and limited documentation.
- Leveraged my music and public speaking background to demo new features to diverse audiences.

PNC numo **Software Engineer Intern** **January 2020 – August 2020**

- Built Python AWS Lambdas to compress and cache images to an S3 bucket, cutting down data usage.
- Created a regression test suite for our transactions API using LocalStack, Behave, Docker, and Python.
- Led sprint retrospectives, demoed new features, and practiced Agile Scrum in a fast-paced environment.
- Developed a new UI test suite for a consumer-facing mobile app using Flutter driver and MockServer.
- Deployed automated tests on GitHub Actions to deliver continuous integration testing.

Columbus McKinnon **Test Automation Intern** **October 2019 – December 2019**

- Saved hours of manual acceptance testing on each release cycle by automating forty UI tests with C#.

EDUCATION

Pittsburgh, PA **University of Pittsburgh** **January 2018 – August 2020**

- B.S. in Computer Science, graduated August 2020. Cumulative GPA: 3.2 / 4.0. Departmental GPA: 3.3 / 4.0.

Carlisle, PA **Dickinson College** **August 2011 – May 2015**

- B.A. in Environmental Studies

ENGAGEMENT AND AWARDS

- **AmeriCorps Education Award:** A scholarship for serving as an educator on water quality and infrastructure.
- **Construction Junction Board of Directors:** Participated in board meetings for a nonprofit, synthesizing complex legal and financial discussions into a clear and concise document.

SKILLS

- Languages: Python, TypeScript
- Frameworks: FastAPI, Jupyter Notebook, Jinja2, OpenAPI, React, Sphinx
- Databases: Dynamo, MySQL, Postgres, Redis
- Infrastructure: AWS Lambda, CloudFront, DynamoDB, EC2, Serverless, S3, SQS, SNS, Terraform
- CI/CD: CircleCI, GitHub Actions, SonarCloud
- Observability: Elastic APM (Kibana), Logz.io, Sentry
